

West Virginia Harvest PROGRAM OVERVIEW

WV Harvest aims to promote the benefits of using local products, which not only helps farmers, growers, and producers, but also supports a wide range of businesses and jobs. The company hopes to spread this message as a way to rebuild declining areas and encourage entrepreneurship through local food sourcing. It is also important that we inspire graduates and students with a message of potential and economic prosperity.

YOUR SOURCE FOR WV MADE PRODUCTS

WV Harvest looks to highlight WV agriculture and the ability to produce value-added products in-state to keep local dollars in West Virginia. To achieve this, WV Harvest has developed strategic partnerships with farmers, producers, and distributors. This networks allows the Brand to source both locally raised beef/pork and commodity meats to offer a selection of meat products that are all Made in WV under the required inspection. These products are processed, cooked, packaged, and distributed in WV, keeping jobs in state through innovations in the food supply chain. In addition to meat products, WV Harvest is able to source additional WV Made products such as butter, cheese, yogurt, produce, and regional delicacies.
